DIAMOND DIGGINGS.

PRECAUTIONS AGAINST THEFT IN
SOUTH AFRICAN MINES.

But In Spite of All This Stealing Still Continues—The Decline of the Town of Kimberley—Population Has Flown to the Gold Fields, About Johannesburg.

"The South African diamond mines are worked almost entirely by native laborers—the Kafirs, Zulus, Hottentots and the rest," said a diamond merchant. "These receive good wages, about \$125 per month, and are hired for a term of three months. During this period they are confined in compounds located on the edge of the mines. The compounds consist of rows of buildings of corrugated iron, forming a hollow square, surrounded by a high board fence and covering several acres of ground. Within this corral are stores, a hospital, boarding houses and other conveniences. Wood and water are furnished free, but no alcoholic liquors are allowed. During their term of service the natives are not allowed to have any communication with the outside world and are under a system of close personal surveillance in order to prevent the theft of diamonds. When they come up from the mine shaft, they are carefully searched, and many ingenious methods are adopted to reduce the loss from this source to a minimum.

"Notwithstanding all that is done, however, the theft of diamonds still continues. It is estimated that from 10 to 20 per cent of the diamonds found are stolen every year. In order to prevent this a very stringent law was passed, providing that all rough diamonds should be registered with the detective bureau of the government as soon as they were found, and that every man who sold a diamond must give with it a certificate of registry.

"The penalty for having an unregistered rough diamond is seven years on the Cape Town breakwater, and the mere fact of possession is prima facie evidence and will secure conviction. So it happens that if one laborer wants to do up another he manages to slip a rough diamond into the other laborer's coat, or into his room, and then tells the police to keep a sharp lookout. Of course the police make a search, the contraband stone is found, and the man is in for a term of seven years. A great many unjust sentences have unquestionably been secured in this way, but despite the opposition to the law the company is powerful enough to keep it in force.

"There are other diamond fields outside of the Kimberley district, but they are difficult to work and are mainly exploited by diggers working on their own account. The total product is not large, and the work is very arduous, the diggers being mostly men who have been thrown out of work by the consolidation of the Kimberley mines into one vast corporation and the subsequent restriction of production. This latter, by the way, has had a curious effect upon the town of Kimberley itself. As late as four years ago Kimberley had a population of 25,000 or 30,000 people. It was laid out for a great city and enjoyed for a time a big boom.

"Fine back blocks and residences were built, hotels and theaters and waterworks and everything pertaining to a modern city. Now a good third of these places are empty, and Kimberley is as dead as a New England town that is dependent upon a single mill. All the supplies and machinery for the mines are now brought of course by a single company, so that more than two-thirds of the business of the town is gone. There is nothing there to sustain a town except the mine, and with the opening up of the goldfields much of the population moved on north to Johannesburg.

"Although the existence of gold in the Transvaal had been known for years, yet the Boers disliked the invading prospectors and for a time kept them out by law. Afterward a more liberal spirit prevailed, and the Boer government offered a reward for the finding of paying goldfields. But it was not until 1882 that the now celebrated gold-bearing reef in which the bulk of South African gold is found was discovered, and it was not until four years later that the opening of the celebrated Sheba mine and its phenomenal yield, gave rise to a fever. Then prospectors poured in from Kimberley and the Cape, coming by push cart, wagon, horseback or on foot. In a year there were 10,000 persons in the district. The center of the excitement was the little town of Barberton, but this section was soon thrown into the shade by the discoveries on the Witwatersrand. But while the excitement lasted the De Kaap fields, as they were known, had their day, and 96 companies, with a nominal capital of \$155,000,000, were started, and many of the shares sold at a tremendous premium. Most of these mines are now abandoned, though the Sheba mine is still a big producer."—New York Sun.

THE RETIRED BURGLAR.

Work Easily Performed in the Tumult of a Thunderstorm.

"Speaking of cinches," said the retired burglar, "the easiest, softest, smoothest snap I ever struck was in a house in a small town in Rhode Island. There was a thunderstorm coming up as I went along toward this house, and just as I got there it began to sprinkle. By the time I got inside it was coming down pretty hard, and I was glad to be under shelter, for I hadn't brought any umbrella with me. I hadn't had any supper either, and when I got into the dining room I thought I'd get something to eat. The sideboard was locked and the key carried up stairs, but a little jimmy opened the door as easy as a knife would open a pie. I set out a little snack on the table and sat down and ate it comfortably, with the rain pouring down outside. If there's anything I like, it's to hear a storm raging outside when you're settled down all snug and comfortable within.

"But here was something I hadn't counted on. The thunder was roaring and plunging like a dozen earthquakes busting down through the sky, and it kept the house in a tremble all the time. I knew nobody could sleep in that thunder. They'd be sure to be all awake, but here I was, and I hated to lose a night, and after I'd waited a little and the storm didn't show any signs of letting up I thought I'd go ahead and see anyhow. The very first room I looked into up stairs scolded the whole business.

"Over in one corner of this room, beyond a bed, I saw a woman standing in front of an open closet door. Two children hopped out of the bed, and the mother pushed them into the closet, and then crowded in herself and pulled the door shut tight. It was all very simple. Husband away, no help; two children sleeping in another room. Woke up by thunder, come into their mother's room, all scared; mother puts children in closet and gets in herself, as lots of folks do in thunderstorms. And then I walk over and turn the key in the lock, and there you are. No danger of their coming out till the storm is over anyway, but just as well to be sure about it, and then I just quietly go through the house. It isn't big, and it doesn't take long, and I come back before the storm is over and unlock the closet door again and skip, and that's all there is to it."—New York Sun.

THEY DEVELOPED YOUNG.

Two Famous Poets, Oliver Wendell Holmes and William Cullen Bryant.

Oliver Wendell Holmes received the degree of doctor of medicine in 1826, being then 27 years old, and in that year he also published his first volume of poems. Nothing of Dr. Holmes' has been more popular than "The Last Leaf," contained in this early collection, and none has more richly deserved to please by its rhythmic beauty and by its exquisite blending of humor and pathos so sympathetically intertwined that we feel the lonely sadness of the old man even while we are smiling at the quaintness so feelingly portrayed.

Dr. Holmes was like Bryant, who composed "Thanatopsis" and the "Lines to a Waterfowl" long before he was 20, in that he early attained full development as a poet. Although each of them wrote many verses in later life, nothing of theirs excelled these poems of their youth. In their maturity they did not lose power, but neither did they deepen nor broaden, and "Thanatopsis" on the one side and "The Last Leaf" on the other are as strong and characteristic as anything either poet was ever to write throughout a long life. What Bryant was, what Holmes was, in this, his first volume of poems, each was to the end of his career.

To neither of them was literature a livelihood. Bryant was first a lawyer and then a journalist. Holmes was first a practicing physician and then a teacher of medicine. He won three prizes for dissertations upon medical themes, and these essays were published together in 1836. In 1839 he was appointed professor of anatomy and physiology at Dartmouth, and the next year he married Miss Anna Lee Jackson. Shortly afterward he resigned the position at Dartmouth and resumed practice in Boston. He worked hard in his profession and contributed freely to its literature, and in 1847 he went back to Harvard, having been appointed professor of anatomy and physiology, a position which he was to hold with great distinction for 35 years.—St. Nicholas.

Send it Back

An old-fashioned way of getting there. Slow and safe, but hard work. Most women, have got beyond this kind of traveling—found something better.

Now, why can't you look at that other old-fashioned proceeding in the same light—washing things with soap and hard rubbing. That's slow enough and tiresome enough, everybody knows, and it's not as safe as washing with Pearline. It's really destructive, in fact, the wear of that constant rubbing. Break away from these antiquated ideas. Use modern methods. Pearline saves at every point.

Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—send it back. 457 JAMES PYLE, New York.

GENTLEMEN!

A word to you about your attire. Scientific clothes, that is from an economic standpoint, to receive the attention they deserve, from the average busy man who would dress correctly without extravagance, must have the points which recommend them, occasionally emphasized, and particular notice taken of their good qualities.

It is always necessary in good clothes to use good cloth, good trimmings and good workmanship; it is also necessary in good, well-fitting clothes to have a competent designer to plan and to see to the execution that the proper lines are adhered to. With these necessary adjuncts to a manufactory, where system is used in planning and laying out the work, it is reasonable to presume that a high standard can be reached at a minimum cost.

To reach the broadest class of intelligent men, who like to dress well on a moderate outlay, has been our aim, and we flatter ourselves, from the large list of representative men whose names are on our order books, that we have achieved a marked success. There is scarcely a doctor in this town whom we do not clothe, the clergymen are particularly partial to us, and the merchants are glad to encourage us with their generous patronage.

Still we are not satisfied,—never will be quite, perhaps. We want all the trade we feel we deserve,—and we mean to deserve much. We fear there may be prejudice in the minds of some, on account of our modest quarters; if so we urge a broadmindedness that will admit of an investigation into our claims, and they may then confess that in our case, modesty is a virtue.

Our Fall Line of Suitings are in, and a whole lot of new patterns for Trousers and Fall Overcoats.

We shall devote some attention to the requirements of the New Woman,—tailor made Sacks and Coats, and the proper material for Capes.

We shall be open for business after Tuesday, Sept. 3d, daytime; and evenings after the 15th.

SUITS, as Usual, to Order, \$12.50 Up. TROUSERS \$3.00 up.

AN EARTHQUAKE SHOCK.

Distinctly Felt in This City and Over a Wide Area.

Many Middletown people had their first experience with an earthquake, Sunday morning. The shock was a mild one and did no damage, but it was distinct enough to admit of no doubt that it was caused by a disturbance in the bowels of the earth. The shock came about 6 o'clock and the vibrations lasted about ten seconds. Only those who were in bed felt the vibrations. The rocking of the bed was very similar to that often felt during wind storms.

The disturbance extended from Delaware to Central New York and was most severe in Central New Jersey and Long Island.

DEMOCRATIC CONVENTION.

The Democratic electors of the State of New York are requested to unite in sending three delegates and three alternates from each Assembly district, to a State Convention, to be held at Syracuse on Tuesday, Sept. 25th, 1895, at 10 o'clock noon, for placing in nomination candidates to be voted for at the ensuing general election, and to transact such other business as may properly come before the convention.

The Globe woolen mills at Utica honored Labor Day by advancing the wages of its employees.

Congressman Odell has not yet shown his hand in regard to the Supreme Court nomination. As between Mr. Hirschberg and Col. Dickey he would naturally favor the former for before he became the supreme boss the Dickey used to contest with him for supremacy and the memory of old feuds may still rankle in his breast. The latest rumor, noted by the *Telegram*, is that Mr. Hirschberg may not be a candidate.

The *Herald*, apropos of Labor Day, published a list of over 700 mills and factories which have, within the past few months, increased the wages of over half a million employees. Full and encouraging as is this exhibit it falls far short of the truth and, best of all, it speaks volumes for the future as well as the present for it indicates a reawakening of industry which gives promise of more widespread activity in industrial centres and wage advances to hundreds of thousands more of workmen.

Conductor Jackson, of the electric road, and two or three others came to the rescue and the assaulting party decamped, but before doing so one of them struck Jackson on the forehead with a stone, which cut a gash in his forehead and almost knocked him senseless.

The leaders of the party will be arrested.

THE VOLKSFEST

German Societies and Their Families and Friends Celebrate Labor Day—A Fine Parade and a Big Time at Maennerchor Park.

The German societies of Middletown gave a Volkfest at Maennerchor Park, yesterday afternoon and evening, in which the German residents of this city and many from Newburgh, Paterson, Port Jervis and other places, besides many of our citizens participated.

The only organizations from out of town were the Maennerchor and Turn Verein, of Newburgh. The members of these organizations with several ladies, numbering about sixty in all, came on a special car attached to train 21 and were met at the depot by members of the committee with the 24th Separate Co. Band. A procession was formed at 11.30 on Franklin Square, which marched through the principal streets and thence to the park in the following order:

Police,
Committee of Arrangements,
Band,
Newburgh Maennerchor and Turn Verein,
Ladies from Newburgh in carriages,
Aldermen in carriages,
Ribbon weavers,
Maennerchor Germania,
Maennerchor ladies in float,
Odd Fellows in float,
Legion of Honor float,
and a float in which were two boats each filled with little boys dressed as sailors.

One boat carried the German colors, with the American flag at the foremast and the other the American colors with the German flag at the fore, representing the good feeling between the Americans and the German people.

The floats were very handsomely decorated with flags and evergreens. The ribbon weavers wore sashes of ribbons of their own weaving, fit emblems of their calling. Henry Thonemann was grand marshal and Charles Hebel and Wm. Vogel were aids. All were mounted and rode their steeds with the grace of field marshals.

At the park there was dancing to the music of the orchestra of the 24th Band, shooting contests, turning and various athletic exercises.

In the shooting contests August Pfaff won the first prize, a gold badge, in the free fall, and also in the contest between societies, making thirty-four out of a possible thirty-six in the first and thirty-two in the second.

In the free fall contests, Wm. Shannon, Jr., took the second prize, a gold badge, and his father, Wm. Shannon, Sr., the third, a diploma. The second prize in the societies' contest was won by Mr. Wiedmann, of Newburgh, and the third by Mr. Hollberg, of Newburgh.

Will Rockefeller won first prize, an air gun, in the boys' race, John Wasserman winning the second, a pocket knife.

In the girls' race May Gorr took first prize, a doll, and Hilda Henning, the second, a toy monkey. Mrs. Oswald Franks, of Newburgh, won the woman's race and received a pair of vases.

A tea set, for the most popular Newburgh lady, was awarded to Mrs. Mueke, she receiving the largest number of votes.

Dancing was kept up until after midnight, when all returned to their homes.

The success of the affair was due to the good management of the committee in charge, as follows: August Koeper, Gustave Gunther, Wm. Vogel, Ernest Meyer, Ernest Isenmann, Conrad Gerhardt, John Henning, John Schmitt, N. Schellenberg, John Balling, Otto Hack, John Adelman, Emil Waizmannegger and R. L. Forthofer.

Anthrax or splenic fever is alarmingly prevalent in some localities in Delaware county. Frank Brandt, R. Shaw and Donald Crawford, of Hamden, have each lost a number of cows by the disease. A cow belonging to L. Dumond, at Loomis, died of the disease, Wednesday. The deaths of many cattle in other parts of the county are reported but it has not been definitely determined that they were caused by anthrax.

What Shall I Do?

Is the earnest, almost agonizing cry of weak, tired, nervous women, and crowded, overworked, struggling men. Slight difficulties, ordinary cares, household work or daily labor, magnify themselves into seemingly impassable mountains.

This is simply because the nerves are weak, the bodily organs debilitated, and they do not

HER AIM WAS BAD.

Mrs. Wern Fires Four Shots at "Mike" Malloy and "Never Fetched" Him—A Sunday Drunken Row.

There was a drunken row at the house of Jacob Wern, on Columbia avenue, Sunday, and but for the bad aim of Mrs. Wern, "Mike" Malloy would have been a corpse to-day and we would have a tragedy to chronicle. As far as can be learned, "Mike" Malloy went to Wern's to get some beer, and objected to drinking the bottled stuff set before him. Mrs. Wern was drunk, and her husband alleges that Malloy attempted to take liberties with her, when she chased him out of the house with a revolver and fired four shots after him, none of which took effect.

W. H. Townsend, Samuel Mullen and a man and his wife and child were passing along the road at the time of the shooting, and were in direct range when the woman fired the revolver, and it was no fault of hers that they escaped injury.

Mrs. Wern was arrested and locked up, and until she had sobered up, raved in her cell, using language that was a disgrace to womanhood. When she was able to tell her story to Capt. Grier, he caused the arrest of Malloy, and both were arraigned before the Recorder, yesterday afternoon, and each sentenced to 30 days in Goshen Jail.

OBITUARY.

William H. Cowley.

Mr. William H. Cowley was found dead in bed, yesterday morning, at his home, No. 21 Wickham avenue. Mr. Cowley was born at Harpersfield, Delaware county, Feb. 20, 1821, and was, therefore, in his seventy-fifth year.

Mr. Cowley was in the milling trade with his father in West Davenport, Delaware county, until 1848, when he moved to Honesdale and became foreman for Dickson & Torrey. In 1858 he moved to Hawley and entered into partnership with his former employer, Judge James Dickson. From Hawley he moved to Pine Bush in 1863, having purchased the grist mill at that place, and remained there in business until the mill was destroyed by fire in 1871.

While in Pine Bush Mr. Cowley presented the M. E. Church with the land upon which the church edifice now stands. From Pine Bush Mr. Cowley moved to Middletown, where he has resided for fifteen years.

On July 18, 1849, Mr. Cowley was married to Juliette Hull, of Mr. Pleasant, Pa. He was a loving husband and devoted father and his loss will be keenly felt by his wife and children, who survive him as follows: Erwin H., of Fishkill Landing; Leroy H., of Newburgh; Gies W., Anna E., wife of William Skinner, and G. Spencer, of Middletown. A daughter, Juliette died when two years old.

Mr. Cowley was a highly respected member of St. Paul's Church, of this city. The funeral will be held Wednesday at 1:30 o'clock from the house. Interment in Hillside Cemetery.

The pall bearers are to be Messrs. Benj. S. Smith, Allan Ridgeway, J. E. Isaman, J. S. Lyon, J. N. Kellogg and C. J. Thayer.

Richard Slee.

Correspondence ARGUS and MERCURY.
The death of Richard Slee, Esq., occurred at Bloomingburgh, Friday afternoon. Although his health had been failing for several years, his friends did not feel that they had any immediate cause for alarm until Tuesday of last week, when a change for the worse took place. The deceased was born at Lansingburgh, N. Y., in 1832, and followed a business career until 1863, when he moved to his farm near Scotchtown. About two years ago he went to live with a daughter near Bloomingburgh. For many years Mr. Slee had been an ordained deacon in the Baptist Church. He was a cultivated Christian gentleman, whose death will be a loss not only to his immediate family, but also to the church in which he was so deeply interested. His wife and two children, Richard and Ella, wife of Henry Robbins, of Bloomingburgh, survive him. The funeral services were held at the house, Monday afternoon.

FOUND DEAD IN BED.

A stroke of Apoplexy Carries off William H. Cowley.
Mr. William H. Cowley was found dead in his bed at his home, No. 21 Wickham avenue, yesterday morning. He had suffered two strokes of apoplexy and was doubtless stricken a third time during the night.

Mr. Cowley formerly resided at Pine Bush but removed to this city many years ago. He is survived by his wife and two children, G. Spencer Cowley, secretary of the Orange County Trust Co., and Mrs. W. S. Skinner, both of this city.

Opening of the Schools.

The public schools opened to-day, with such a large attendance in all departments that it is probable additional rooms will have to be leased.

Diarrhoea should be stopped promptly. It soon becomes chronic. DeWitt's Colic & Cholera Cure is effective, safe and certain. Hundreds of testimonials bear witness to the virtue of this great medicine. It can always be depended upon; its use saves time and money. W. D. Olney.

THE GOSHEN RACES.

The Opening of the Fall Meeting—Good Attendance and Interesting Contests.

The Goshen races attracted a large holiday crowd, yesterday afternoon, and although the fields were small, first class sport resulted. The favorites were close, and the last race, the 2 21 class, required six heats to finish it, so that it was nearly dark before the race ended.

Santos, a handsome black gelding, won first money in straight heats, in the four-year-old race, beating Le gene, who was well thought of by the talent.

Fitch Clark won the 2:27 class, after Lucy Veltman had taken the first two heats. Britto, who won a race at Campbell track, July 4th, was displaced in the first heat.

The 2:24 race furnished a dead heat between Dutchess County Belle and Trafford, in the first heat. Trafford won the next heat and the Belle won the third. The latter got the distance flag in the fourth heat, which was won by Kansas Wilkes, who also took the fifth and sixth heats and the race.

BITTEN BY A RATTLESNAKE.

His Life Saved by the Application of Lewis's Snake Bite Remedy.

A ten-year-old boy at Beaver Dam, Sullivan county, was bitten in the calf of the leg by a rattlesnake, Saturday. The boy killed the snake before he realized that he had been bitten. George Lewis, residing near Port Jervis, was sent for, but did not arrive until five hours afterward. The boy's legs, arms and even his face were swollen, but Lewis applied his remedy and its good effects were soon apparent. The boy will recover.

Arrested for Violating the Excise Law.

Frank Gearty, who was employed at the Palm, last winter, was arrested in New York and held in \$200 bail, Monday morning, on a charge of violation of the excise law. He was employed in a saloon, the proprietor of which attempted to beat Roosevelt's little game, and Gearty happened to be on duty when the police thought the time ripe for action.

INCIDENTS AND HAPPENINGS IN GOSHEN.

A Slight Fire—Back From Europe—

Won the Hat—A Lost Pocketbook—Personal and Local Notes.

From Our Regular Correspondent

At about 8:30 o'clock, this morning, fire was discovered in a shed in the rear of the residence of Wm. V. Ray, on Greenwich avenue. There had been a fire made in the building, yesterday, for the purpose of firing some hand-painted china, and a spark probably lodged in the rafters, smoldered through the night and caused the blaze of this morning. The entire fire department quickly responded to the alarm, and the fire was extinguished without difficulty. The damage was slight.

Rev. and Mrs. R. B. Clark and Mr. and Mrs. J. W. Goss arrived home from their European trip, Saturday night last. They enjoyed the trip from beginning to end, and had a pleasant journey throughout.

Mr. Wm. Hoffman won the \$5 bat offered by Horton & Dean to the player making the best batting average in Saturday's ball game. He made four base hits out of five times at bat.

Mr. T. D. Hill has rented the new house which has just been erected by Mr. Seneca Jessup, on Scotchtown avenue.

Mr. Harry Church has secured a position in the new grocery store of Hartwell & Co.

A pocketbook containing a ladies' gold watch and chain and about \$12 in money was lost, Sunday, between the residence of Wm. Haley, West Main street, and the residence of Michael Fitzgerald, Hamptonburgh. The watch had a hunting case, on which were engraved the initials "J. R." The finder will receive a liberal reward by leaving property at the Goshen post-office.

The Cataracts will hold their regular monthly meeting, on Friday evening next, at their rooms at 8:30.

Mr. Edward Radfield, who has been spending his vacation with relatives in town, returned to New York, last night.

Mr. Chas. T. Jackson, Jr., of East Orange, N. J., spent Labor Day with his parents in this village.

To-morrow will be one of the best days of the racing, as the fastest class of the week will come off, the 2:13 pacing. A special purse of \$200 is offered by the association to beat 2:12.

Dr. Ernest Lederly, who is connected with the laboratory of the Board of Health of New York city, is visiting friends in town.

Tagged Through to St. Louis.

Arthur Reed, aged seven years, who has been visiting his grandparents at E. Lenville, started for his home in St. Louis on Erie train 5, Saturday. A tag, giving his name and address, and his ticket were pinned to his coat and he was placed in charge of the conductor.

Patersonians at Midway.

Four carloads of American Mechanics and their families from Paterson came to Goshen, yesterday, over the Erie and then to electric cars for Midway, where they spent the day. They brought an orchestra with them and danced in the pavilion to their hearts' content.

Did You Ever Think

That you cannot be well unless you have pure, rich blood? If you are weak, tired, languid and all run down, it is because your blood is impoverished and lacks vitality. These troubles may be overcome by Hood's Sarsaparilla because Hood's Sarsaparilla makes pure, rich blood. It is, in truth the great blood purifier.

IN AN INSANE ASYLUM

London's Famous "Jack the Ripper" Safe in Confinement.

HIS IDENTITY FULLY ESTABLISHED

A Young Medical Student Whose Mind Had Become Unbalanced Through Over Study. The Fact of His Incarceration Revealed by an Eminent English Physician.

New York, Sept. 2.—Dr. Forbes Winslow, of London, a well known specialist on suicide and insanity, says that "Jack the Ripper," who by his crimes terrorized London a few years ago, is incarcerated in a county lunatic asylum in England. Dr. Winslow says this fact is known to the authorities, but they have hushed up the case. The doctor has come to New York to attend the medico-legal congress, which will be held Sept. 4, 5 and 6. He will be chairman of the department of insanity and mental medicine, and has prepared a paper on "Suicide Considered as a Mental Epidemic."

The story told by Dr. Winslow follows: "Jack the Ripper" was a medical student, of good family. He was a young man, of slight build, with light hair and blue eyes. He studied very hard, and his mind, being naturally very weak, gave way. He became a religious enthusiast, and attended early service every morning at St. Paul's.

His religious fervor resulted in homicidal mania toward the women of the street, and impelled him to murder them. He lodged with a man whom I know, and suspicion was first directed toward him by reason of the fact that he returned to his lodgings at unreasonable hours, and that he had innumerable coats and hats stained with blood.

I have in my possession now a pair of Canadian moccasins stained with blood that the "Ripper" wore while on his murderous expeditions. I notified the Scotland Yard authorities, but at that time they refused to co-operate with me. Subsequently the young man was placed in confinement and removed to a lunatic asylum, where he is today. Since his incarceration there has been no repetition of the horrible murders that he perpetrated.

Those facts are all known to the English authorities, and it is conceded that the man now in the asylum is "Jack the Ripper." It was deemed desirable, however, to hush the matter up. The details were too horrible to be made the subject of a public trial, and there was no doubt of the man's hopeless insanity.

England's Case Against Belgium.

LONDON, Sept. 2.—The Associated Press learns from a trustworthy source that the Englishman, Stoke, hung by the Belgians, under Captain Lothaire, near the river Aruwini, in the Congo state, had a legal trial, but that Captain Lothaire acted illegally in hanging him without allowing in appeal to the tribunal at Boma. Le Maitre, of Paris, declares that the Congo state authorities possess a letter which Captain Lugard wrote to the chairman of the East Africa company, warning him that if he laid hands upon Stoke he would make short work of him. The charge against Stoke was of selling arms and ammunition to Chief Kibonge, with whom the Belgians were fighting.

Sanitary Measures in Mexico.

JALAPA, Mex., Sept. 2.—The state government after a careful study of the propositions made by General Escobar and aides for the sanitation of the port and city of Vera Cruz has fully approved them, and has urged the city government of Vera Cruz to adopt a plan so well calculated to render the port one of the healthiest on the coast. The chief interest felt here in the success of this project which will give Vera Cruz a lasting chance against the growth of the port of Tampico, which is threatened by yellow fever, and therefore building houses as a safe port for foreigners.

Death of Fish Commissioner McDonald.

WASHINGTON, Sept. 2.—Hon. Marshall McDonald, United States fish commissioner, died at his residence in this city, Mr. McDonald had been suffering from pulmonary trouble since November, but he did not become seriously ill until August 22, at which time he was taken to the hospital. He was a native of Virginia. He was thoroughly conversant in the study of fish and was appointed fish commissioner by President Cleveland in 1893.

Sensational Tennessee Feud Renewed.

CLARKSVILLE, Tenn., Sept. 2.—A sensational feud is reported to have been renewed in Polk county. In July Colonel Stone killed a man named Hammond and wounded John Rhodes. The dead man and a woman who lived with him here were killed by Rhodes' friends. Several small fights followed, but no very serious trouble occurred until a day or two ago, when the opposing forces met and are said to have had a fatal battle, several being killed or wounded.

Brutal Treatment of Chinese Christians.

SHANGHAI, Sept. 2.—Chinese Christians are being brutally treated near Hong Hwa, province of Fo Kien. Houses have been burned and property and cattle stolen. One person was fatally wounded. The magistrates refused to interfere, although he was five times requested to do so. He had published an ambiguous proclamation referring to the Kuiching massacre and inciting a rising against the Christians. Worse troubles are expected.

A Baby's Life Saved.

ADDISON, N. Y., April 8, 1894.—Hand Medicine Co.,—"I feel it my duty to write you in regard to my little daughter's sickness from teething and indigestion. She is seven months old. Two of the best physicians gave her up. One bottle of Dr. Hand's Teething Lotion relieved her so much that we tried Dr. Hand's Colic Cure also, and at once saw a change for the better. These remedies saved my baby's life."—Mrs. Wellington Brown." Dr. Hand's Colic Cure and Dr. Hand's Teething Lotion sold by all druggists, 25c.

"I was troubled with heart disease

for six years, severe palpitations, shortness of breath, together with such extreme nervousness, that, at times, I would walk the floor nearly all night. We consulted the best medical talent.

They said there was no help for me, that I had organic disease of the heart for which there was no remedy. I had read your advertisement in The Graphic and a year ago, as a last resort, tried one bottle of Dr. Miles' New Cure for the Heart, which convinced me that there was true merit in it. I took three bottles each of the Heart Cure and Restorative Nervine and it completely cured me. I sleep well at night, my heart beats regularly and I have no more smothering spells. I wish to say to all who are suffering as I did, there's relief untold for them if they will only give your remedies just one trial."

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.00, 50c, 25c, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medicine Co., Elkhart, Ind.

TO SET IRELAND FREE.

The Meeting of the Irish Revolutionary Party in Chicago.

NO HOPE THROUGH PARLIAMENT.

The Call for the Convention Declares That There is No Hope for Legislation in the Interest of Ireland from Either Liberal or Tory Governments.

CHICAGO, Sept. 2.—The official call for the convention of the new Irish movement to be held in Chicago, Sept. 24, 25 and 26, has been issued from the headquarters of the executive committee of the organization. It says:

"The Irish struggle for freedom has reached a momentous period. Ireland, abandoned in the crisis of her fate by the Liberal leaders, is told by the Tory secretary to the lord lieutenant that the British government is sternly and unalterably opposed to the granting of any measure of home rule whatever. This is the old policy and the language employed by successive English governments toward Ireland. She has been alternately betrayed by the Whigs and dragged by the Tories. Nothing worth her acceptance is to be expected from either of the leading English parties.

"Ireland must, therefore, look to her own children and their descendants for support in her great extremity. Parliamentary agitation has had a long and patient trial, but has utterly failed to accomplish its object. It remains for us to consider what other method of proceeding or argument can be used to achieve her liberation.

"The Irish race in America cannot afford to be momentary in action, while the motherland is being slowly but surely done to death by the usurping enactments of a foreign and hostile power. In union with thousands of our race distributed throughout the Union, and after mature deliberation, the undersigned have decided to call a convention of Irish-Americans to take into consideration the present status of the Irish struggle for freedom, and to devise ways and means best suited to the accomplishment of Ireland's independence.

"The qualifications for membership in the convention are agreed upon as follows: All Irish American military, benevolent, athletic, social, religious and literary organizations that favor the independence of Ireland, and are willing to send a representative to the convention, are invited to send one delegate for every fifty members, and one additional for every hundred members; two delegates for every hundred members, and one additional for every fraction over a hundred, and so on in proportion."

Fiendish Attempt to Wreck a Train.

PITTSBURGH, Pa., Sept. 2.—Shortly after midnight Saturday night an attempt was made to wreck Lehigh Valley passenger train No. 2, bound west. The attempt was made at Tomkins's Switch, where the line skirts the banks of the Susquehanna river, and had it succeeded the train, consisting of five well-filled sleepers, three-day coaches and two baggage cars, would have plunged down a twenty-foot embankment into the river. The train was fortunately a half hour behind time, when a truck walker discovered a heap of timbers, ties and boards on the track, and flagged the train, which was approaching at high speed.

Cheering Words for Debs.

CINCINNATI, Sept. 2.—The three unions here of the American Railway union yesterday met and wired the following to Eugene V. Debs: "Although you are a prisoner, deprived of your liberty by a rotten administration of justice at the bidding of the railroads and their servants, the judges, the common people are today worshipping at your altar. The seeds you have sown will soon bear fruit. The time will soon come when labor will get its rights or will take them. You are to the laboring man an honest, fearless leader."

A Young Girl Terribly Burned.

ATLANTIC CITY, Sept. 2.—Theresa Thomas, 13 years old, who lives with her parents at the Schuylkill Valley House here, was terribly burned about the legs and body while stirring soup in the kitchen of Reading Inn, where she was employed. Her clothes ignited from the stove, and with flames bursting from her she ran into the street, where a stranger caught her and extinguished the flames by rolling her in the sand. She is in a precarious condition at a hospital.

The International Yacht Races.

NEW YORK, Sept. 2.—According to the agreement between Lord Dunsany and the cup committee the match for the America's cup will consist of the best three out of five races, over courses thirty nautical miles in length, with a time limit of six hours. The match will commence on Sept. 7, and will be continued on alternate days. The races will be started off Sandy Hook lightship, the preparatory signal being given at 10:30 a. m. and the starting signal at 11.

A New Sprinting Record.
BROCKTON, Mass., Sept. 2.—The world's professional and amateur record for the 100 yards dash was broken here yesterday in the national championship foot race by Ed Donovan, of Norfolk, who lowered the record to 9.35 secs. The world's record was equaled twice in the trial heats. The former record was 9.45 secs., both professional and amateur. The race was hotly contested by Donovan and Tom Morris, of Santa Ana, Cal. Morris was the favorite, as he had equaled the world's record in practicing.

A Silletto in His Back.
PHILADELPHIA, Sept. 2.—An Italian who gave his name as Joseph Murray was stabbed in the back with a silletto by Michael Boutellier, and is dying. Murray and three other Italians were employed in the whitening works of Griffiths Brothers. Boutellier formerly worked there, but was discharged six months ago for inattention to duty. He believed that Murray and the other three men had conspired to force him out of his position, and had frequently threatened to "get square." Boutellier escaped and is still at liberty.

The Letter Carriers' Convention.
PHILADELPHIA, Sept. 2.—Four thousand letter carriers from all towns in this section of the country participated in yesterday's parade, which preceded the annual convention of the National Association of Letter Carriers. The parade was reviewed at the Union League club by Postmaster General Wilson, ex-Governor Pattison, Mayor Warwick, the postmasters of New York, Chicago, Brooklyn and Philadelphia, and others. At a banquet in the evening the postmaster general was the principal speaker.

The Farmer Shot to Kill.
WASHINGTON, Ind., Aug. 3.—A. L. Carr, a farmer, has a melon patch which he guards too vigilantly. Two weeks ago he shot Charley Smith, a boy tramp, who was stealing melons, and Smith is now being patched up at the poor asylum. On Saturday morning Carr shot an unknown youth through the heart in the melon patch. Carr, who gave himself up, claims self defense, but this is denied by railroad employees, who witnessed the affair.

Well Known Coal Operator Dead.
HARTFORD, Conn., Sept. 2.—Thomas H. Carter, aged 49, one of the best known coal operators of Wayne, Delaware county, Pa., died at the residence of his brother-in-law, Dr. W. R. Longshore, in this city, yesterday. He leaves a widow and one daughter. Mr. Carter managed the business of his brother, W. T. Carter, who at one time operated collieries at Stockton, but he afterwards took charge of those at Coleraine.

A Hunted Fugitive's Confession.
LANCASTER, Pa., Sept. 3.—A man who gave his name as Henry Bowers was arrested in Columbia yesterday as a suspicious character. He confessed that he is wanted in Camden, N. J., for numerous burglaries, and said that he had been so closely pressed by the detectives that he had not had a moment's peace. The Camden authorities have been notified of the arrest.

Demanding Increased Wages.
YONKON, N. Y., Sept. 3.—The furnace employees of the Mahoning valley have issued a notice to their employers demanding an increase of 10 per cent. in wages. The same was granted to the furnace workers of the Shenango valley last week. The employers are given until this evening to reply, and if the demand is not granted by that time a general strike will be ordered.

To Work on Fall Time.
SHAMONK, Pa., Sept. 3.—The Pennsylvania, Richmond, Hickory Ridge and Hickory swamp mines of the Union Coal company have been put on full time for the first time this year. Six thousand men and boys will be employed, and the full time will continue throughout this month.

How to be Handsome.
It is a mistake to suppose that the only way to be good looking is to be born so. Good health has more to do with good looks than anything else. Such diseases as constipation, dyspepsia, liver complaints, rheumatism, nervous disorders, &c., not only shorten life, but spoil tempers and "looks." Bacon's Oatley King for the nerves cures these troubles. John J. Chambers sells it and will give a sample package free.

A Common Danger.
If you have ever had a cold which you permitted to "wear away" it may interest you to know it was a dangerous proceeding. Every cold and cough which is neglected paves the way for consumption, bronchitis, asthma or catarrh. Otto's Cure, the famous German throat and lung remedy, will cure any cough or cold and save you from consumption. Call on John J. Chambers and get a sample bottle free.

THE COSHEN FLORIDA BALL GAME

Played in the Rain and Easily Won by Goshen—A Disappointment to the Spectators—The Game in Detail.

Saturday's ball game between Goshen and Florida, which was played at Goshen for a purse of \$200 and the entire gate receipts, proved to be a very unsatisfactory contest both to the spectators and the losing players. The articles of agreement called for a game, "irrespective of weather," and therefore, although a heavy rain was falling, Umpire "Jack" Degnan called play shortly after 2 o'clock.

The rain fell, with only a few short intermissions, throughout the contest, and both spectators and contestants were thoroughly soaked.

The game was very one-sided and a great disappointment to the spectators, who anticipated a "scrappy," "kicking" contest. There was no chance to kick at the umpire's decisions, not one of which was close, or could a hint of any question.

Goshen sent Florida to bat first and Charlie Tierney went in the box. Ralph Wisner was the first man up and he was an easy victim, Jansen to Kiernan. The next three men struck out, although G. Wisner was put out at first on a missed third strike.

In Goshen's half Florida started out with a fourteen-year-old boy in the box. Charlie Landy and Jansen each made a hit, Kiernan knocked a fly to Riley, who threw wild to catch Jansen at first, and both runners advanced a base.

The boy was retired at this stage of the game and Decker, who had been late in putting in an appearance, went into the box. Tierney was sent to first on four balls, filling the bases. O'Neal's sacrifice scored Landy.

Miller's grounder to Riley bounded badly and two men scored. Hock went to first on called balls, and Hoffman's clean single scored two more runs. Landy's hit sent Hock across the plate, and Hoffman made the third out while trying to score at the plate.

With a lead of six runs against them Florida went to pieces. Three more men struck out in the second inning, although two men went to bases, one on Landy's error and one on a base on balls.

Goshen made four more runs in the second inning, on a base on balls, Kiernan's three bagger, Tierney's double, single by Miller and Hock, assisted by G. Wisner's error and several wild throws.

Florida scored three runs in third inning, on two bases on balls and Kiernan's errors. They also scored in the sixth and seventh innings on a base on balls and errors. None of their runs were earned.

Goshen increased its lead in every inning but the third and "won in a walk."

Charlie Tierney pitched a remarkable game considering the condition of the ball. Only four hits were made off his delivery and ten men struck out.

"Danny" Kiernan covered himself with glory by making a three base hit over the fence. He had made wagers that he would accomplish both feats and won the money, two dollars for the hit and a dollar for sending it over the fence.

The gate receipts were over \$172, which of course goes to the winning team.

Capt. Joe Hunter, of Florida, meets his loss with good grace, but insists that under other circumstances his team would have won.
